ADD LIGHT BULB

We'll start to install a light bulb, please follow the steps below.

1. Press the Light bulb button.

FAST MODE

After you pressed the light bulb button you will see the screen below.

To add a light bulb we need to be sure that the light bulb is rapidly flashing. Please follow these steps to get it done.

1. Turn the light bulb into a fitting
2. Power on the light bulb.
3. Turn the light bulb off and turn it on. Do this five times in a row.
4. Confirm the light bulb is now flashing rapidly.

If the light bulb is flashing rapidly please follow the steps below.

1. Press the Confirm button.

If the light bulb is not flashing rapidly follow the steps bellow.

1. Power on the light bulb.
2. Turn the light bulb off and turn it on. Do this five times in a row.
3. Confirm the light bulb is now flashing rapidly.

If the light bulb is flashing rapidly please follow the steps bellow.

1. Press the confirm button.

< How to Set Light Bulb in Smart Mode
